

**EXT. MIDDLE OF NOWHERE - DAY**

**FADE IN FROM BLACK:**

We hear the sound of the wind and nature. We are far away from everything.

A house stands proud in the middle of nowhere.

- The sound of a TV can be heard from the outside.

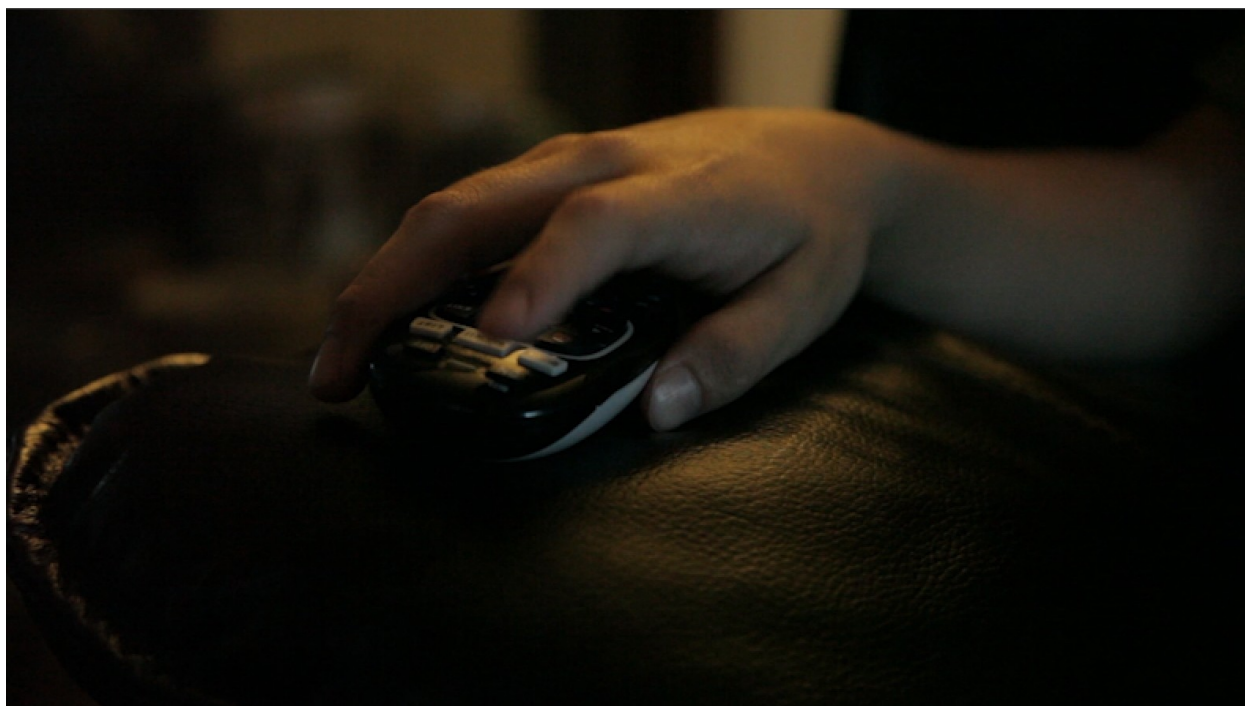

INT. FEAR'S LIVING ROOM - DAY

A figure sits in an over stuffed arm chair, surrounded by the darkness watching a TV in front of him, though we can't make out the figure from behind.

The character is flipping through his X1 directory on his Hisense TV-

-bringing up various sports clips of famous professional athletes NOT retiring (Lebron, Brady)

We see his reaction, yet we don't see his face. He twists his lips as in "if they can do it, so can I!".

The figure reaches to a Monster on a stand to his left. There, we see a photo of the past glories. We hear the sound of the can open.

And after a second, the figure reaches with his right hand, grabs his phone, selects a number and puts it to the side of his heads.

Moments later, we hear Fear say: "Sumail, I'm coming back," and he puts down the phone.

We now see the figure, Fear, turns off the TV, stand up from the chair and walk over to a chest/box he has on a table in the room.

He opens the chest, gold light emits a la Indiana Jones and-

-he pulls out his retired Fear jersey as well as his SteelSeries gear.

Cut to black, big text takes over, "Fear Returns."

# FEAR RETURNS
